

The National Association for Interpretation has an exciting new division-
The International Interpretation Section!

This will not only provide a home for international members,
but also for North American members who want to be more international.

The goals of this section are:

- ▲ Promote internationalism by providing opportunities for members to increase international understanding and cultural competency.
(Internationalism: n. the advocacy of a community of interests among nations and peoples.)
- ▲ Promote opportunities for members to network internationally and form academic, business and professional partnerships.
- ▲ Create a forum for members to share their international experiences and knowledge.
- ▲ Create a “home” within NAI for international members.
- ▲ Serve as the primary source for news related to international interpretation.
- ▲ Support NAI international initiatives.

MISSION STATEMENT

To foster an understanding of world heritage through cultural exchange, international networking and professional development.
